

JANUARY 2018 ASHRAE MEETING

THURSDAY JANUARY 18

11:30am-1:00pm

**14 East Cache La Poudre Street
COLORADO SPRINGS, CO 80903
Michael Brubaker; P.E., C.E.M.**

COLORADO COLLEGE CENTRAL UTILITY PLANT TOUR

We will tour the Williams Central Plant - Colorado College and walk through the high temperature hot water (HTHW) and chilled water distribution systems the college utilizes. The tour will provide an overview of all systems in the central distribution plant and discuss plant operation and sequences.

Speaker Biography

MICHAEL BRUBAKER is the Mechanical Services Engineer at Colorado College. He graduated from the University of Colorado at Colorado Springs with a mechanical engineering degree. Michael is a Colorado Registered Professional Engineer and Certified Energy Manager with the Association of Energy Engineers. Mr. Brubaker has over 8 years of experience as a mechanical engineer providing mechanical and plumbing design services in addition to commissioning and retro commissioning services. In his current role at Colorado College, Michael is responsible for providing day to day engineering and technical support for all campus HVAC, electrical, plumbing and central plant systems. He also assists in supervising the daily operation of the technical trade shops and central utility plant operators along with providing project management services for all MEP and campus utility distribution projects.
